

HEIGHT-ADJUSTABLE
WELDING TABLE

BUILT

www.builtsystems.net

The BUILT welding table provides an ergonomic solution for welders while maintaining the highest standards of rigid strength, durability and flexibility.

This table is sleek from top to bottom and can be customized to your precise specifications. The modular design allows for knocked-down shipping which makes this welding table cost effective and keeps it easy to improve wellness and efficiency for your team. It is available with a noncorrosive zinc dichromate or raw steel table surface.
