# Product Range

## Hollow Bars Solid Bars

### Bars, Sheets and Rings

Bars, sheets and rings complement the standardised product range. The same application and installation instructions are applicable. They are used in the field of construction of machines, tooling and installations.

#### Hollow Bars

**EFFBE-Urelast 90 Shore A**

EFFBE-Urelast 80 Shore A

Basic material for springs in special lengths, damping discs and custom made components and prototypes.

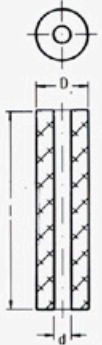

#### Solid Bars (round and square)

**EFFBE-Urelast 90 Shore A**

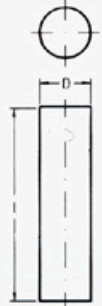

EFFBE-Urelast 80 Shore A

Basic material for cylindrical springs (higher forces as compared with hollow springs), custom made components and prototypes.
