

## 0.9°/1.8° Stepping Motor and Driver Package

# UMK Series

For details on this product please refer to our website, contact technical support or your nearest Oriental Motor sales office.  
[www.orientalmotor.com](http://www.orientalmotor.com)

The **UMK** Series is a 0.9° or 1.8° stepping motor (resolution: 200 or 400 steps per rotation) with an easy to use AC input driver package. It provides enhanced high-speed characteristics compared with motor packages combined with a DC input driver.

RoHS
